

# Make Your Own **AROMATIC VINEGAR SPRAY**

For  
All-Purpose  
Cleaning!

## You Will Need:

- 1/2 cup white vinegar (distilled)
- 1/2 cup water
- 12 to 24 drops of essential oil
- Spray bottle
- Measuring cup and funnel

## How to Mix an Aromatic Vinegar Solution

1. Choose one or a combination of essential oils.
2. Using a measuring cup and funnel, add the vinegar and water in the desired ratio, and shake to mix them together.
3. Add the essential oils directly to your spray bottle.
4. Shake the bottle to incorporate the essential oils.
5. Label the bottle with a permanent marker.
6. Store the bottle out of direct sunlight or heat, which can change the chemical constituents in the essential oils.

To use, spray any areas that need to be cleaned, rinse well, and wipe dry. For tougher cleaning jobs, like grout, use a toothbrush or scrub brush.
